

Snapshot

The **AMS-QT10** is a Qwik-Twist replacement membrane for BWS100 systems that reduces total dissolved solids – minerals responsible for scale and corrosion – at a flow rate of up to 75 gallons per day.

Cartridge Benefits

- Virtually eliminates scale and corrosion problems related to high TDS.
- Qwik-Twist cartridge makes changing the filter quick, easy and sanitary.

Model: **AMS-QT10**
Part #: 204-52810

REPLACEMENT CARTRIDGE

ITEM #: _____ QTY: _____

JOB NAME/NUMBER _____

Application

Applications requiring reverse osmosis.

Installation Tips

- Insure cartridge is designed to replace the existing cartridge.
- Do not exceed cartridge specifications for temperature and pressure.
- Allow 3" clearance below system for filter cartridge removal and replacement.
- Feed-water connection to system should be COLD only.

Model: **AMS-QT10**
Part #: 204-52810

► Specifications

Cartridge	
Dimensions (Height x Width x Depth, inches)	13.5" x 2.75" x 2.75"
Operating Pressure Range	10 - 125 psi (0.7 - 8.6 bar)
Inlet Water Temperature Range	35 - 100°F (2 - 38°C)
Shipping Weight	3 lbs.
Performance	
Service Flow Rate	up to 75 gpd (284 lpd)

► System(s) Cartridge Used In

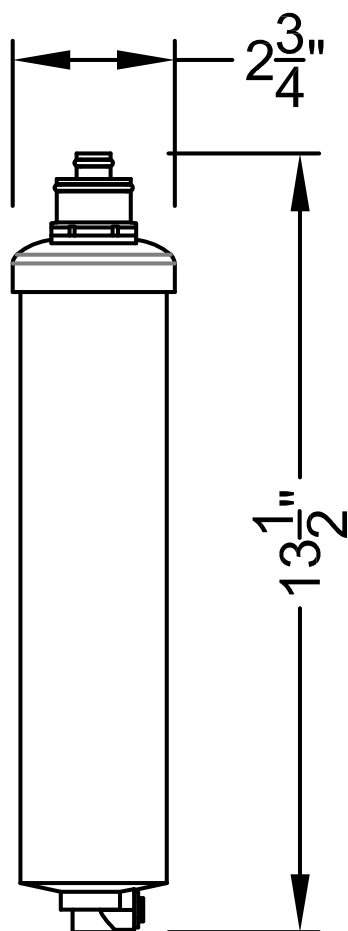

Model	Qty
BWS100 RO Systems	1

This product is for commercial use only and must be installed and maintained according to manufacturer's guidelines.

Do not use on water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

► Warranty

Replacement filter cartridges are warranted for defects in material and workmanship only. Service life of replacement filter cartridges varies significantly with local water conditions and volume and thus cannot be warranted. Furthermore, separation membranes are equally susceptible to feed water conditions (e.g. presence of iron, alum and silica) and shall be warranted only for defects in construction. Membrane failure due to fouling, hydrolysis, oxidation or other damage caused by the local water conditions is not covered under warranty.
